

Joshua Dawkins

I am a highly motivated web developer with an A final grade from a recent boot camp. Skilled in front-end and back-end technologies, I am passionate about building intuitive user interfaces and solving complex problems through coding.

EXPERIENCE

Sage Sustainable Electronics, Columbus OH — *Material Handler*

2020 - 2022

Collaborated with a team to maintain accurate data logs, ensuring precise inventory tracking throughout the workflow. Demonstrated strong attention to detail, task focus, and achieved results, leading to improved inventory accuracy and streamlined processes.

EDUCATION

The Ohio State University, College of Engineering — *Full-Stack Flex Coding Boot Camp*

Jan 2023 - July 2023

Completed an intensive web development boot camp with a focus on acquiring both technical and interpersonal skills essential for high-performance in collaborative development environments.

PROJECTS

React Application — *The Journey*

This most recent group project. This was an app designed to help individuals track personal goals and growth. This project shows skills necessary to host a website using react components to interact with back end data management.

Social Media — *Pocket Plant*

In this project my group made a means to track plants and plant growth to help gardeners with both the plant upkeep and sharing their progress with other like minded plant centric people. In this project you can see the skills necessary to maintain a social media like site.

Web Application — *Pokedex*

This happened to be a showcase of what passion and teamwork done well can achieve. This web app is an earlier display of the skills that were further developed over the time of the boot camp. It shows all the skills needed to display a well made and visually pleasing web app.
